

Fact Sheet

Sewer Replacement Nevada Ave – Asher St to Garvey Ave, CIP 005

Project Description

The Department of Public Works maintains over 130 miles of sanitary sewers and seven (7) pump stations. Most of the sewer lines were installed over 50 years ago and are made of vitrified clay material ranging from 6 to 12 inches in diameter. The purpose of this Project is to relocate and upgrade the sewer main that traverse private property and to reconnect laterals around the Nevada Ave. & Bodger Avenue Residential Area.
